NATURAL ORGANIC MATTER RESEARCH

International Humic Substances Society

To Advance the Knowledge and Research of Natural Organic Matter in Soil and Water

IHSS is recognized as a world leader in fostering scientific education and research, and promoting public understanding of humic substances and natural organic matter.

Activities include the assembling of information about genesis, isolation, fractionation, functionality, structures, reactivities and interactions, and the environmental influences of humic substances.

- **IHSS Standard and Reference Samples** to compare experimental results on humic substances and natural organic matter
- **Newsletter**
- **Biennially International Conferences**
- **Travel Awards for PhD students**
- **Training Awards for PhD students and young scientists**
- **Young Investigator Research Grant Program**

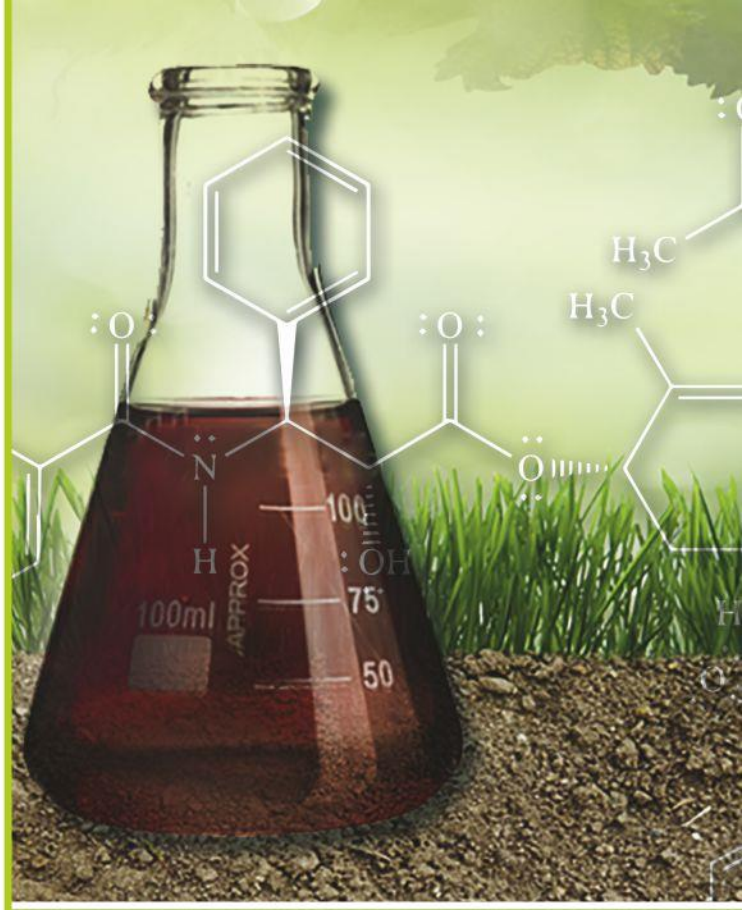
For further information on membership http://humic-substances.org/

IHSS NATURAL ORGANIC MATTER RESEARCH

19th INTERNATIONAL CONFERENCE OF INTERNATIONAL HUMIC SUBSTANCES SOCIETY

Humic Substances and Their Contribution to the Climate Change Mitigation

16-21 September 2018 Albena Resort **Bulgaria**



Host and organizer:
Bulgarian Humic Substances Society
Sofia, Bulgaria
e-mail: ihss_2018@abv.bg
http://bhss.itp.bg

Contact person:
Prof. Dr. E. Filcheva - President
Tel: +359 888 72 38 18
e-mail: filcheva@itp.bg

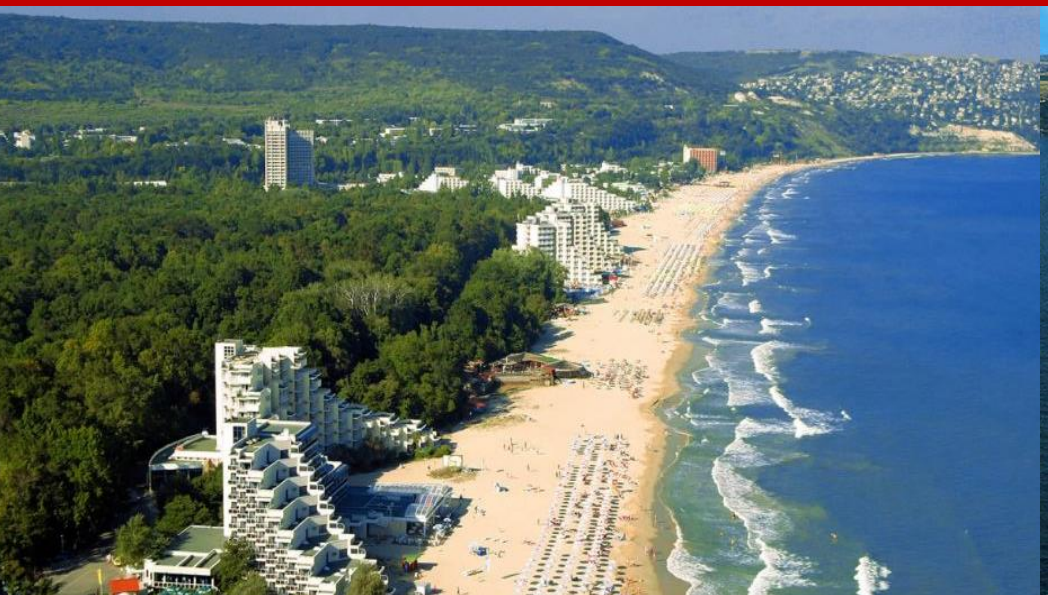
TOPICS of 19th Conference of the IHSS

Environmental Chemistry – Dynamics - Role of Humic Substances and Natural Organic Matter

Biotic Interactions – Toxicity - Role of Humic Substances and Natural Organic Matter

Water Quality - Drinking Water – Surface Waters

Soil Physical Chemistry - Soil Fertility

Humic Based Technologies - Crop Production


SAVE THE DATE → 16 - 21 SEPTEMBER 2018
