ANNOUNCEMENT

Siv.ing. Karine Lindmo at Department of Molecular Biosciences will

Fredag 7.12. 2007, kl. 10.15
Aud. 2, Kristine Bonnevies hus, Blindern

give a trial lecture on the following topic:

"Signalling mechanisms controlling autophagy. The role of TOR and Atg1"

Fredag 7.12. 2007, kl. 12.15
Aud. 2, Kristine Bonnevies hus, Blindern

the doctoral candidate will defend her/his dissertation:

“Regulation and function of autophagy in Drosophila melanogaster”

for the degree of Ph.D.

To judge the dissertation and the disputation the Faculty appointed the following committee:

Professor Sharon A. Tooze, London Research Institute, Lincoln's Inn Fields Laboratories, London, UK
Associate professor Geir Bjørkøy, Department of Biochemistry, Institute of Medical Biology, University of Tromsø
Professor Kristian Prydz, Department of Molecular Biosciences, University of Oslo

Sharon A. Tooze, Professor, PhD and Geir Bjørkøy, Førsteamanuensis, PhD are appointed to serve as opponents and Professor Norbert Roos will chair the disputation.

Professor Reidunn Aalen
Head of Department
