ANNOUNCEMENT

Master i teknologi Mariann Sparaby Nordlund ved Institutt for molekylær biovitenskap vil

Tuesday May 19th, at 10:15,
Auditoriet, bygg A, U1,
The Norwegian Radium Hospital
give a trial lecture on the following topic:

“Development, characterization and analytical use of monoclonal antibodies against proGRP with relevance to small cell lung cancer”

Tuesday May 19th, at 12:15,
Auditoriet, building A, U1,
The Norwegian Radium Hospital
the doctoral candidate will defend her/his dissertation:

“Development, characterization and analytical use of monoclonal antibodies against proGRP with relevance to small cell lung cancer”

for the degree of Ph.D.

To evaluate the dissertation and the disputation the Faculty appointed the following committee:

Professor Ulf Håkan Stenman, Department of Clinical Chemistry, Helsinki University, Central Hospital, Biomedicum, Helsinki University, Finland
Professor Tor Lea, Institutt for kjemi, bioteknologi og matvitenskap, Universitetet for miljø og biovitenskap, Ås
Professor Kirsten Skarstad, Avdeling for Cellebiologi, Institutt for Kreftforskning, Radiumhospitalet, Oslo

Professor Ulf Håkan Stenman and Professor Tor Lea are appointed to serve as opponents and Finn-Eirik Johansen will chair the disputation.

Finn-Eirik Johansen
Head of Department
