

Foundational assumptions
Basic assumptions that we make when constructing theories and interpreting observations

Constituents of the Universe
What the Universe is made of, and how it behaves

Featuring
Review talks, technical talks and small group discussions

SPONSORS

cmr Prototech

The laws of physics
Basic theoretical frameworks that we rely on for building cosmological models

SPEAKERS INCLUDE...

C. Boehm (Durham)
G. Efstathiou (KICC Cambridge)
A. Heavens (Imperial College London)
O. Lahav (UC London)
R. Maartens (Western Cape; Portsmouth)
J. Magueijo (Imperial College London)
V. Mukhanov (LMU Munich)
H. Peiris (UC London)

C. Burgess (McMaster)
P. G. Ferreira (Oxford)
B. A. Reid (UC Berkeley)
G. Starkman (CWRU)
R. Teyssier (University of Zurich)
