

February 12th at 10:15 AM–02:15 PM
The Science Library, Vilhelm Bjerknes' House, Blindern

Darwin Day 2016

Still evolving

Evolution today and
in the recent past

You are here

Programme

Introduction
Nils Chr. Stenseth, Chair of CEES

Time travel in experimental evolution
Richard Lenski, Michigan State University, USA

Tracking recent evolution with ancient DNA
Ludovic Orlando, Centre for GeoGenetics, Natural History Museum of Denmark, University of Copenhagen, Denmark

Malaria: Evolving beyond the barrier of Duffy negative resistance
Peter Zimmerman, Case Western Reserve University, Cleveland, Ohio, USA

Crickets, diets and songs: adaptive signal loss shows how evolution affects
Marlene Zuk, University of Minnesota, USA

www.mn.uio.no/cees

UiO  **Department of Biosciences**
University of Oslo

CEES
Centre for Ecological and Evolutionary Synthesis

Tree of Life (~3,000 species, based on rRNA sequences) by David M. Hillis, Derrick Zwickl, and Robin Gutell, University of Texas.
