

**Evolving immunity, across
fast to slow life-cycles**

C. Jessica E. Metcalf
Princeton University, USA

**Unravelling the coevolution of
pregnancy and immune defence**

Olivia Roth
*GEOMAR Helmholtz Centre
for Ocean Research Kiel, Germany*

**Does host-parasite coevolution
generate genetic diversity?**

Dieter Ebert
Universität Basel, Switzerland

**Frightful flyers: How to deal
with mosquitoes carrying
emerging viruses?**

Carla Saleh
Institut Pasteur, France

**Once upon a time:
The role of circadian
rhythms in malaria infection**

Sarah Reece
University of Edinburgh, UK

Darwin Day 2018

The ecology and evolution of infectious diseases

Monday February 12th 2018, 10:15–15:10
Aud. 1, Vilhelm Bjerknes' hus
Blindern, University of Oslo
