EVOLUTIONARY THEORY

Volume 7

ISSUE

CONTENTS

1. Aphids and a step toward the universal species concept. .G.Ch. SHAPOSHNIKOV	1
Natural selection and blending inheritance. J.L. KING	41
Evolution of flowering plants by fungus-to-host horizontal gene transfer. W.F. LAMBOY	45
Goldschmidt reaffirmed: a positive step towards a new synthesis? S.R. TELFORD III	52
Adaptive radiation of whales: is constitutive heterochromatin an intrinsic isolating mechanism? G.H. JARRELL	53
Host plant morphology, speciation, and the economics of mate choice in the soldier beetle <u>Chauliognathus pennsylvanicus</u> . . . D.K. MCLAIN	63
Devolution and punctuated equilibria. A. MEREDITH & R.M. SCHOCH	68
Jack Lester King. L.M. VAN VALEN	69
2. Selectively neutral alleles with significant phenotypic effects: a steady-state model. J.L. KING	73
Fossils and semiotics. N. PRINS & R.M. SCHOCH	80
Clonal divergence of mitochondrial DNA versus populational evolution of nuclear genome. P. FORT et al.	81
Addendum & Erratum.	91
Why are there essential amino acids and other nutrients. . . . E.L. CHARNOV	92
3. How constant is extinction? L.M. VAN VALEN	93
Patterns of origination. L.M. VAN VALEN & V.C. MAIORANA	107
Why and how do mammals evolve unusually rapidly? L.M. VAN VALEN	127
A theory of origination and extinction L.M. VAN VALEN	133
Altruism and movement in plants. D.A. JONES & A.D. RAMNANI	143
Selection of mating barriers between populations of unequal size J.L. KING	149
Cystic fibrosis: heterozygote survival in a toxic enviroment. . . J.L. NEAL	153
What Kaneshiro "really said" about asymmetrical mating D.M. LAMBERT et al.	165
Fur and milk, getting and spending. L.M. VAN VALEN	169
An extraordinary book from Down Under. L.M. VAN VALEN	172
Le véritable Lamarck.	172
Unreviewed abstracts: Mathematical formalization of protein evolution based upon geometric constraints. F.J. PAPATHEOFANIS	126
The incompleteness of the fossil record: Charles Darwin's explanation. R.M. SCHOCH & R. YANAI	152
A general theory of natural selection: synopsis. F.J. CLOAK, Jr.	168
4. Evidence that group selection counters the evolution of sexual dimorphism. R.C. LACY	173
Occurrence of abnormal phenotypes in a host-alternating aphid and their implications for genome organization and evolution. . S. AKIMOTO	179
The regular condensation of developmental stages as a mechanism of the evolution of man and culture. B. EKSTIG	195
Detecting and measuring stabilizing selection. B.F.J. MANLY	205
The trouble with Nemesis. C.R. PELLEGRINO	219
Why honey bees have different dance rhythms. E.M. EGGHART	223
Errata.	178, 194
Unreviewed abstracts: On the evolution of hierarchical ordered systems. A.G. LINDH	218
Metaptation: A descriptive category for evolutionarily versatile patterns of genetic and ontogenetic organization. D.G. KING	222
5. The leaf venation and reproductive structures of a Late Triassic angiosperm, <u>Sanmiguelia lewisii</u> B. CORNET	231
