The Centre for Renewable Energy (SFRE) is proud to announce that the 3rd Renewable Energy Research Conference will be held in Oslo, Norway, June 16-18 2014, at the University of Oslo main campus, Blindern.

The goal of RERC is to bring together renewable energy research within technology, social sciences and economics. Top international scientists will give key note presentations, in combination with oral and poster presentations from researchers and industry.

Eight parallel sessions will give an opportunity to explore and discuss major scientific developments within environment-friendly energy research.

The sessions will cover:

- Renewable Energy Production
- Renewable Energy Storage
- Renewable Energy Usage and Energy Efficiency
- Energy Distribution (Smart Grid)
- Sustainable Transport
- Innovation and Public Engagement
- A Green European Electricity Market
- Transition Strategies, Policy and Scenarios
