

Publications by Wolfram Michael Kürschner prior to 2010

2009

Kürschner, W.M. & Kvacek, Z., 2009. Oligocene – Miocene CO₂ fluctuations, climatic and palaeofloristic trends inferred from fossil plant assemblages in central Europe. *Bulletin of Geosciences*, 84, 1-14. doi:10.3140/bull.geosci.1091. 2009

Bonis, N.R., Ruhl, M. & **Kürschner, W.M.**, 2009. Climate change driven black shale deposition during the end-Triassic in the western Tethys. *Palaeogeography, Palaeoclimatology, Palaeoecology*, doi:10.1016/j.palaeo.2009.06.016.

Ruhl, M., **Kürschner, W.M.** & Krystyn, L., 2009. Triassic–Jurassic organic carbon isotope stratigraphy of key sections in the western Tethys realm (Austria). *Earth and Planetary Science Letters*, 281, 169–187. doi:10.1016/j.epsl.2009.02.020.

Wan, S., **Kürschner, W.M.**, Clift, P.D., Li, A. & Li, T., 2009. Extreme weathering / erosion during the Miocene Climatic Optimum: evidence from sediment record in the South China Sea. *Geophysical Research Letters*, 36, L19706, doi:10.1029/2009GL040279.

2008

Esmeijer-Liu, A.J., Aerts, R., **Kürschner, W.M.**, Bobbink, R., Lotter, A.F. & Verhoeven, J.T.A., 2008. Nitrogen enrichment lowers *B. pendula* green and yellow leaf stoichiometry irrespective of effects of elevated CO₂. *Plant and Soil*. DOI 10.1007/s11104-008-9783-1.

Van Hoof, T.B., Wagner, F., **Kürschner, W.M.**, Dilcher, D.L. & Visscher, H., 2008. A role for atmospheric CO₂ in pre-industrial climate forcing. *Proceedings of the National Academy of Sciences USA*, 105, 15815-15818. DOI 10.1073/pnas.0807624105.

Kürschner, W.M., Kvacek, Z. & Dilcher, D. L., 2008. The impact of Miocene atmospheric carbon dioxide fluctuations on climate and the evolution of terrestrial ecosystems. *Proceedings of the National Academy of Sciences of the USA*, 105, 449-453. doi: 10.1073/pnas.0708588105.

Richoz, S., Krystyn, L., Spötl, C. & **Kürschner, W.M.**, 2008. Building an Upper Triassic Carbon Isotope reference curve. *Berichte der Geologischen Bundesanstalt*, 76, 17-19.

2007

Kürschner, W.M., Bonis, N.R. & Krystyn, L., 2007. Carbon-isotope stratigraphy and palynostratigraphy of the Triassic–Jurassic transition in the Tiefengraben section — Northern Calcareous Alps (Austria). *Palaeogeography, Palaeoclimatology, Palaeoecology*, 244: 257-280. [[Carbon isotope data download](#)]

Krystyn, L., Bouquerel, H., **Kürschner, W.M.**, Richoz, S. & Gallet, Y., 2007. Proposal for a candidate GSSP for the base of the Rhaetian stage. *New Mexico Museum of Natural History & Science Bulletin*, 41, 189-199.

Wagner, F., Visscher, H., **Kürschner, W.M.** & Dilcher, D.L., 2007. Influence of Ontogeny and Atmospheric CO₂ on Stomata Parameters of *Osmunda regalis*. *Cour. Forsch.-Inst. Senckenberg*, 258, 183-189.

Von Hillebrandt, Krystyn, L. & **Kürschner, W.M.**, 2007. A candidate GSSP for the base of the Jurassic in the Northern Calcareous Alps (Kuhjoch section, Karwendel Mountains, Tyrol, Austria). *ISJS Newsletter*, 34: 2-20.

Krystyn, L., Richoz, S., Gallet, Y., Bouquerel, H., **Kürschner, W.M.** & Spötl, C., 2007. Updated bio- and magnetostratigraphy from Steinbergkogel (Austria), candidate GSSP for the base of the Rhaetian stage. *Albertiana*, 36: 164-172.

Kouwenberg, L.R.L., **Kürschner, W.M.** & McElwain, J.C., 2007. Stomatal frequency change over altitudinal gradients: prospects for paleoaltimetry. *Reviews in Mineralogy & Geochemistry*, 66: 215-241.

2006

Van Hoof, T.B., Bunnik, F.P.M., Waucomont, J.G.M., **Kürschner, W.M.** & Visscher, H., 2006. Forest re-growth on medieval farmland after the Black Death pandemic - implications for atmospheric CO₂ levels. *Palaeogeography, Palaeoclimatology, Palaeoecology*, 237: 396-411. DOI: 10.1016/j.palaeo.2005.12.013

Van Hoof, T.B., **Kürschner, W.M.**, Wagner, F. & Visscher, H., 2006. Stomatal index response of *Quercus robur* and *Quercus petraea* to the anthropogenic atmospheric CO₂ increase. *Plant Ecology*, 183: 237-243. DOI: 10.1007/s11258-005-9021-3

2005

Van Hoof, T.B., Kaspers, K.A., Wagner, F., Van de Wal, R.S.W., **Kürschner, W.M.** & Visscher, H., 2005. Atmospheric CO₂ during the 13th century AD: reconciliation of data from ice core measurements and stomatal frequency analysis. *Tellus B*, 57/4, 351-355. doi 10.1111/j1600-0889.2005.00154

Kouwenberg, L.L.R., Wagner, F., **Kürschner, W.M.** & Visscher, H., 2005. Atmospheric CO₂ fluctuations during the last Millennium reconstructed by stomatal frequency analysis of *Tsuga heterophylla* needles. *Geology*, 33(1), 33-36.

2004

Nguyen Tu, T.T., **Kürschner, W.M.**, Schouten S. & van Bergen, P.F., 2004. Leaf carbon isotope composition of fossil and extant oaks grown under differing atmospheric CO₂ levels. *Palaeogeography, Palaeoclimatology, Palaeoecology*, 212, 199-213.

Kouwenberg, L.L.R., **Kürschner, W.M.** & Visscher, H., 2004. Changes in stomatal frequency and size during elongation of *Tsuga heterophylla* needles. *Annals of Botany*, 94, 561-569.

Visscher, H., Looy, C.V., Collinson, M.E., Brinkhuis, H., Konijnenburg-van Cittert, J.H.A. van, **Kürschner, W.M.** & Sephton, M.A., 2004. Environmental mutagenesis during the end-Permian ecological crisis. *Proceedings of the National Academy of Sciences of the USA*. 101 (35), 12952-12956.

2003

Kürschner, W. M. & Visscher, H., 2003. Das Massenaussterben an der Perm/Trias - Grenze: die "Mutter" aller Naturkatastrophen. In Hansch, W. (Ed.): *Katastrophen in der Erdgeschichte - Wendezeiten des Lebens*. Museo, 19: 118-127.

Kouwenberg, L.L.R., McElwain, J. C., **Kürschner, W.M.**, Wagner, F., Beerling, D. J., Mayle, E. & Visscher, H., 2003. Stomatal frequency adjustment of four conifer species to historical changes in atmospheric CO₂. *American Journal of Botany* 90, 610-619.

2002

Kuerschner, W.M., 2002. Carbon isotope composition of fossil leaves – revealing ecophysiological responses to past environmental change, *New Phytologist* 155, 199-201.

2000 - and before

Wagner, F., **Kürschner, W.M.**, Neuvonen, S. & Visscher, H., 2000. The influence of hybridization on epidermal properties of birch species and the consequences for palaeoclimatic interpretations. *Plant Ecology*, vol. 148(1), 61-69

Poole, I. & **Kürschner, W.M.**, 1999. Stomatal density and stomatal index: the praxis. In Jones T. P. & Rowe N. P. (eds.): *Fossil plants and spores: modern techniques*. *Geological Society, Special Publications, London*: 257-260.

Kürschner, W.M., Rieck T. & Stritzke R., 1999. Zur Geologie des Paläozoikums bei Brilon - Altenbüren. *Münstersche Forschungen zur Geologie und Paläontologie*, 86: 11-24.

Kürschner, W.M. & van der Burgh, J., 1999. Plant vegetative features in the fossil record. In Singer, R. & Diamond, M. K. (eds.): *Encyclopedia of Paleontology*. Fitzroy Dearborn Publishers.

Wagner, F., Bohncke, S.J.P., Dilcher, D.L., **Kürschner, W.M.**, Geel, B. van & Visscher, H., 1999. Century-Scale Shifts in Early Holocene CO₂ Concentration. *Science*, vol. 284, 1971-1973.

Wagner, F., Bohncke, S.J.P., Dilcher, D.L., **Kürschner, W.M.**, Geel, B. van & Visscher, H., 1999. Early Holocene Atmospheric CO₂ Concentrations. *Science*, vol. 286, 1815a
<http://www.sciencemag.org/cgi/content/full/286/5446/1815a>

Kürschner, W.M., Stulen, I., Wagner, F. & Kuiper, P. J. C., 1998. Comparison of palaeobotanical observations with experimental data on the leaf anatomy of the Durmast Oak (*Quercus petraea*, Liebl.) in response to environmental change. *Annals of Botany*, 81: 657-644.

Kürschner, W.M., 1998. Comment on: McElwain J. C. (same issue). Do fossil plants signal palaeo-atmospheric CO₂ concentrations in the geological past. *Philosophical Transactions of the Royal Society of London (B)*: 353.

Kürschner, W.M., Wagner, F., Visscher, E.H. & Visscher, H., 1997. Predicting the response of leaf stomatal frequency to a future CO₂ enriched atmosphere - constraints from historical observations. *Geologische Rundschau*, 86: 512-517. ABSTRACT

Kürschner, W.M., van der Burgh, J., Visscher, H. & Dilcher, D.L., 1996. Oak Leaves as Biosensors of Late Neogene and Early Pleistocene Paleoatmospheric CO₂ concentrations. In Sloan L. C. & Poore R. (Editors): Pliocene climates. *Marine Micropaleontology (Spec. Vol.)*, 27 (1-4): 299-312.

Kürschner, W.M., 1996. Leaf stomata as biosensors of palaeoatmospheric CO₂ levels. Ph.D. thesis, Utrecht University, *LPP contributions series no. 5*: 153pp.

Wagner, F., Below, R., De Klerk, P., Joosten, H., Dilcher, D.L., **Kürschner, W.M.** & Visscher, H., 1996. A natural experiment on plant acclimation: lifetime stomatal frequency response of an individual tree to annual atmospheric CO₂ increase. *Proceedings of the National Academy of Science USA*, 93: 11705-11708.

Kürschner, W.M., 1996. The anatomical diversity of recent and fossil leaves of the durmast oak (*Quercus petraea*, Lieblein / *Quercus pseudocastanea*, Goeppert) - Implications for their use as biosensors of paleoatmospheric CO₂ levels. *Review of Palaeobotany and Palynology*, 96: 1-30.

Kürschner, W., Becker R. T., Buhl D. & Veizer J., 1993. Strontium Isotopes in Conodonts: The Devonian - Carboniferous Transition, The Northern Rhenish Slate Mountains, Germany. *Annales de la Société géologique de Belgique*, T. 115 - fasc.2 - 1992: 595-621.

van der Burgh, J., Visscher, H., Dilcher, D. L. & **Kürschner, W.M.**, 1993. Paleoatmospheric signatures in fossil leaves. *Science*, 260: 1788-1790.
