

GeoLearning Forum

21.-22. October 2021

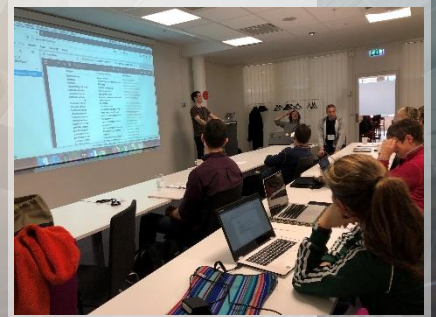

Leangkollen Hotel - Oslo

Once again, iEarth invites both instructors and students in the Earth Science community in Norway to the annual GeoLearning forum. Do you want to share an experience, or have you tried a new innovative teaching method? **Share and gather inspiration across the iEarth**

consortium!

Designing student learning trajectories

Finding out what works and not in your teaching

How to be a confident instructor

Improving supervision of master students

Exploring present and future digital learning tools

How to increase competence awareness in academia

iEarth will provide food and accommodation.

Deadline 1st of October

Registration
