

BIOS5213/9213 evaluation Spring 2021

Submission: 13764923

Dear all BIOS5213/9213 students

Now that we have finished this year's course, we would like to have some feedback from you as to how we can improve the course for next year.

Please fill in the questionnaire below. You don't have to fill in everything - just comment on the parts where you have some input.

Thank you very much in advance.

Exam

Any comments to the exam set?

Any comments around the organization of the exam?

Digital teaching

Of course, this year's course was to a large degree influenced by the pandemic and by the fact that we had to turn everything into digital teaching. We hope that this will not be the case the next time that we are giving the course. Still, we would like also to have comments on how you think this worked - what worked well and what was especially challenging?

General comments to the course
