Research data management – Part 3: Archive

Where do you plan to archive your research data?

Questions?

Thank you!

Thank!

Great stuff

Should we upload to private github or uio github?

Thank!

1+ menti

What will happen if my data gets leaked out?

How does one access UiO cloud services?

Questions?

Very informative 🥰👍

homo rudolphensis, universitas osloensis

Do students typically finish their masters or drop out?

Couldn't github still be used for restricted data if it's a closed repository?

Does UiO: Informatikk usually take Research Assistants ?

Who corrects our final thesis?

what to do with interview data?

What's the average grade on the ifi master theses?

thanks

Questions?

Isn't it a "core value" that you shouldn't use data for a purpose which is was not intended? How can you then use other people's research data for your own research?

How does one go about finding funding for a PhD project if there is no «stipendiat» offered for your subfield?

(☒☒☒)

Menti was cool!

What if i scrape data that happens to be published without someones consent

Are there any guides on how to de-identify interview data?

Can i work on the thesis over the summer?

How long can data be stored after the project?

Who owns the data we produce?

Questions?

Is there any funding for master's thesis students?

Are data privacy mechanisms applicable? e.g. differential privacy or k-anonymity

, , (_____) (oo) (O) || \ \ [] / _____ \ \ / / _____ \ \ / / _____ \ \ / _____ \

Can't web scraping be illegal in some cases? E.g. parameter tampering

Is de-identified interview transcripts considered green or yellow data?

Is any code we create considered yellow data?
