

Tønnes Nygaard
Associate Professor
Cybernetics and Autonomous Systems

Master thesis topics

UNIVERSITY
OF OSLO

My background

- PhD in Robotics and Intelligent Systems @ IFI
- Worked extensively on:
 - Machine learning and AI
 - Legged robots
 - Applied and practical robots

UNIVERSITY
OF OSLO

Specific topic suggestions:

- Eurobot
- Space rovers
- Legged robotics
- Design, build and control mechanically unconventional robots
- Learning to characterize terrain through experience
