International Humic Substances Society

To Advance the Knowledge and Research of
Natural Organic Matter in Soil and Water

IHSS is recognized as a world leader in fostering scientific education and research, and promoting public understanding of humic substances and natural organic matter.

Activities include the assembling of information about genesis, isolation, fractionation, functionality, structures, reactivities and interactions, and the environmental influences of humic substances.

- **IHSS Standard and Reference Samples** to compare experimental results on humic substances and natural organic matter
- **Newsletter**
- **Biennially International Conferences**
- **Travel Awards for PhD students**
- **Training Awards for PhD students and young scientists**
- **Young Investigator Research Grant Program**
