

Is there life after PhD?

Think career, Solveig Engebretsen, Nov 18 2022

UiO : **Faculty of Medicine**
University of Oslo

- Master in modelling and data analysis, MI, UiO

PhD  job

- Ask around for coming positions!
- Postdoc at MI
- I was also looking for positions, especially at NR
- When I got an offer, I called NR
- I learnt: risky to wait for jobs,
actively ask for positions,
use open applications and reach out.
- Start early with your dream job!

CV, application, interviews

- <https://www.tekna.no/cv-byggeren>
- Application: who am I, why is my background relevant (phd, master thesis), other relevant background (summer jobs, teaching etc.), why am I interested in the job and why is it particularly suitable for me.
- Job interview: Ask what the job can do for you and tell what you can do for them.

- ▶ Private research institute from 1952
- ▶ Contract research
- ▶ Project-based: industry, public sector, research institutes, universities etc.
- ▶ ~80 researchers
- ▶ Departments: SAMBA, BAMJO, SAND, IKT-forskning
- ▶ Varied projects: COVID-19, sea lice

- Networking.
- Be visible.
- Go to seminars and social events.
- Say yes if you have capacity.
- Lunch!
- For me: Big Insight, summer job, seminars.
